

STATEMENT OF MISSION

- We will always endeavor to treat our clients with the utmost respect and operate with complete integrity.
- We believe trust is the most important factor for a successful client-advisor relationship. Thus, we will do everything possible to earn and maintain this trust.
- We believe our revenue is a byproduct of high-quality service and advice. As a result, we will never operate from a posture of selling, but will strive to protect our client's interests through objective and thorough analysis, only recommending products and/or services which we believe are *truly* in their best interest.

We will always place the interest of our clients ahead of our own.
